

**CONSEQUENTIAL LOSS ASSUMPTION (OFF PREMISES POWER)**

**025700 (01/00)**

The Insurance under this Policy on "Contents" is hereby extended to include loss or damage to "Stock" due to change in temperature resulting from damage, caused by the perils insured against, to refrigeration or cooling apparatus, connections or supply pipes and apparatus furnishing power thereto, situated on the premises described in the declarations, and/or to off premises public utility plants, substations, transformer or switching stations or transformers and transmission lines furnishing electrical heat, light or power to the premises described in the declarations.

The foregoing extension is subject otherwise to all terms and conditions of this policy (as now existing or hereinafter changed) without increasing the amount(s) insured.

It is understood and agreed that if there shall be other Fire Insurance on the said property, this company shall only be liable by virtue of this extension of liability for not exceeding such proportion of such Consequential Loss as the amount of this policy bears to the total Fire Insurance on the property, whether such other Fire Insurance does or does not cover Consequential Loss, and whether or not such Fire Insurance be valid or collectible.

This endorsement shall not apply to the "Riot or Malicious Damage" perils.
